

Steps to push

1. Select the directory which you want to push like command is `cd html`
2. `git init`
3. `ls`
4. `ls -a`
5. `git status`
6. `git add .` Or `git add` u can specify the name as well like `and.txt`
7. `git status`
8. `git commit -m "any comment u want "`
9. `git log` will show history of commit
10. `git remote add origin (url of your repo)` and to change the origin `git set-url origin url`
11. `git remote -v`
- `git branch -M main`
12. `git push origin main`

`git push -f origin main`

`git commit --amend --date="2024-03-07 20:12:20" -m "commit"`
